

Packaging Variables

(Draft)

Path: Financial Aid > Awards > Award Processing > Assign Packaging Variables

Note: This page is currently being modified to add custom labels and functionality. This is a draft job aid to explain the labels, it will be updated as more information comes.

After reviewing a student's package (on the **Assign Awards to a Student** page), you may wish to review the Packaging Variables, and perhaps override a value.

Packaging Variables update through a nightly batch process, by a manual update, or when a student updates Cal Central. However the Packaging Variables do not update instantly when FASO staff make budget adjustments or ISIR adjustments which would impact the Packaging Variables. That means for now, counselors cannot instantly and accurately update a package using "Assign Awards to Student" if there are changes made that affect Packaging Variables. However, a process (run control) is being discussed/developed which will eventually allow counselors to update Packaging Variables and packages instantly, rather than waiting for the nightly batch process to take place.

User Variables tab (coming soon!)

This page lets you review amounts (e.g. Gift Aid Eligible), lock a term budget, or mark as ineligible for a Parent Grant.
