Enroll early to be eligible for Berkeley appointments, stipends, services

To be eligible for certain university services and opportunities, you need to enroll early. Even if you are only enrolling in non-classroom courses, such as independent research and writing units, you still need to enroll. Un-enrolled students will not be eligible to: 1) be hired for academic appointments (e.g., GSI, GSR, etc.); 2) receive stipend(s) from university fellowships and grants; or 3) access to some university services and programs (e.g., university health, counseling and psychological services, library, etc.).

Check your Holds in CalCentral -- some may prevent you from enrolling

Check your CalCentral page to find out if you have any holds that may prevent you from enrolling, and for information on how to remove each hold. There are different types of holds: administrative, academic, financial, etc. Contact your department advisor for further assistance.
