

## Guide to Reports for Enrollment and Scheduling

Below you see a list of reports that are available for class enrollment and scheduling. They can be accessed through CalCentral advisors' Reporting Center, or through Campus Solutions by navigating through **Main Menu > CAL Components > Reporting > Reporting Center**.

### Notes on reports:

- Some prompts for search criteria, such as "Term" or "Institution" are required in order for a report to run—required prompts are typically designated with an asterisk.
- The more prompts you fill in or check off, the fewer are the rows of returned data. Conversely, the fewer prompts you complete, the larger the resulting data set. For example, if you leave the class number empty for a department, you will get data on all classes in that department. If you supply a class number, you will only get data for that one class.
- Mousing over a report name will tell you what the report does.
